

MYOB AccountRight Standard v19

The smarter way to manage your accounting and inventory requirements.

AccountRight Standard, formerly MYOB Accounting, is accounting and inventory management software from New Zealand's leading accounting software provider.

Get started fast

Be up and running in minutes with the Easy Setup Assistant. Start recording transactions without knowledge of accounting concepts and principles. Quickly learn how to process transactions or tasks with the in-built step-by-step guide.

Simple recording of GST

AccountRight Standard enables you to efficiently process your accounting and GST requirements.

Quickly report on sales, profit and more

The Business Insights Dashboard shows how your business is performing at a glance.

Easy inventory management

Know exactly what's in stock and on order. Email sales, purchases and remittance advices to customers and suppliers. Easily reconcile inventory balances at any time. Utilise full manufacturing build, back-ordering capabilities and set up to six pricing levels.

Print pricelists and packing slips and import items from Microsoft Excel. Buy and sell in different units and automatically back-order and buy stock.

Manage jobs, customers and suppliers

Easily provide your suppliers with itemised remittance advices and customers with quotes, invoices and statements.

Monitor what is owed to suppliers and when payments are due.

Transaction management

Pinpoint transaction details with ease. View transactions by account number and tax code to assist with reconciliation. Set specific Lock Periods by date to perform reconciliations weekly.

Access contact information instantly

Store and search all contact information within the Card File. Import and export contact logs and customer lists. Synchronise Card File with Microsoft Outlook.
