

2010 MYOB UPDATE

Introduction

Dear Client,

Welcome to the 2010 Financial Year. The Bright Wild & Thomas team is gearing up for another huge year, working alongside you to achieve another successful year in business.

MYOB Update

MYOB has released their 2010 software, so now is a great time to upgrade, as these new versions of MYOB have come out with some exciting new features.

Each upgrade is designed to enhance software & business procedures.

With these new releases MYOB has changed some of the names of their software as listed in the table below.

As technology changes the challenge to remain on older versions grows! Upgrading from a very old or obsolete version can be a difficult and lengthy process & may not be possible.

Product names and costs

Former Name	New Name	Full Version	Upgrade Cost
MYOB Cashbook	MYOB Cashbook	\$249.00 inc GST	\$111.38 inc GST
MYOB Accounting	MYOB AccountRight Standard	\$499.00 inc GST	\$223.88 inc GST
MYOB Accounting Plus	MYOB AccountRight Plus	\$799.00 inc GST	\$448.88 inc GST. This includes Payroll
MYOB Premier	MYOB AccountRight Premier	\$949.00 inc GST	Contact us for a price
MYOB Premier Enterprise	MYOB AccountRight Enterprise	\$3,299.00 inc GST	Contact us for a price

What's not changing?

You don't need to worry about learning a whole new piece of software as the core of the new 2010 MYOB software is still the same.

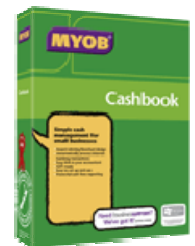

Need help with upgrading?

Bright Wild & Thomas have trained support people to help you with the upgrade process and the ongoing support. Contact: Martin Lee, Nicky Old or Jordan Slappendel at Bright Wild & Thomas.
